How should I use this medicine?

This vaccine is for injection under the skin. It is given by a health care professional. A copy of Vaccine Information Statements will be given before each vaccination. Read this sheet carefully each time. The sheet may change frequently. Talk to your pediatrician regarding the use of this medicine in children. While this drug may be prescribed for children as young as 12 months of age for selected conditions, precautions do apply.

Overdosage: If you think you have taken too much of this medicine contact a poison control center or emergency room at once. NOTE: This medicine is only for you. Do not share this medicine with others.

Where should I keep my medicine?

This drug is given in a hospital or clinic and will not be stored at home.

NOTE: This sheet is a summary. It may not cover all possible information. If you have questions about this medicine, talk to your doctor, pharmacist, or health care provider.

What side effects may I notice from receiving this medicine?

Side effects that you should report to your doctor or health care professional as soon as possible: allergic reactions like skin rash, itching or hives, swelling of the face, lips, or tongue; breathing problems; changes in hearing; changes in vision; difficulty walking; extreme changes in behavior; fast, irregular heartbeat; fever over 100 degrees F; pain, tingling, numbness in the hands or feet; seizures; unusual bleeding or bruising; unusually weak or tired. Side effects that usually do not require medical attention (report to your doctor or health care professional if they continue or are bothersome): aches or pains; bruising, pain, swelling at site where injected; diarrhea; headache; low-grade fever of 100 degrees F or less; nausea, vomiting; runny nose, cough; sleepy; swollen glands

This list may not describe all possible side effects. Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.
