2730 E.TREMONT AVE , BRONX , NY , 10461
Phone#: 7185975230 Fax#: 7185972886

Drug NDC: 00067-0810-21

Drug Name: HABITROL

How should I use this medicine?

This medicine is for use on the skin. Follow the directions that come with the patches. Find an area of skin on your upper arm, chest, or back that is clean, dry, greaseless, undamaged and hairless. Wash hands with plain soap and water. Do not use anything that contains aloe, lanolin or glycerin as these may prevent the patch from sticking. Dry thoroughly. Remove the patch from the sealed pouch. Do not try to cut or trim the patch. Using your palm, press the patch firmly in place for 10 seconds to make sure that there is good contact with your skin. After applying the patch, wash your hands. Change the patch every day, keeping to a regular schedule. When you apply a new patch, use a new area of skin. Wait at least 1 week before using the same area again.
Talk to your pediatrician regarding the use of this medicine in children. Special care may be needed.

Overdosage: If you think you have taken too much of this medicine contact a poison control center or emergency room at once.

NOTE: This medicine is only for you. Do not share this medicine with others.

Where should I keep my medicine?

Keep out of the reach of children.
Store at room temperature between 20 and 25 degrees C (68 and 77 degrees F). Protect from heat and light. Store in manufacturer's packaging until ready to use. Throw away unused medicine after the expiration date. When you remove a patch, fold with sticky sides together; put in an empty opened pouch and throw away.

NOTE: This sheet is a summary. It may not cover all possible information. If you have questions about this medicine, talk to your doctor, pharmacist, or health care provider.

What side effects may I notice from receiving this medicine?
