**Drug NDC: 00074-4456-49**  
**Drug Name: ULTANE NOVATION**

**How should I use this medicine?**

This medicine is for inhalation. It is given by a health care professional in a hospital or clinic setting. Talk to your pediatrician regarding the use of this medicine in children. While this drug may be prescribed for children as young as full-term newborns for selected conditions, precautions do apply. Patients over 65 years old may have a stronger reaction and need a smaller dose.

**Overdosage: If you think you have taken too much of this medicine contact a poison control center or emergency room at once. NOTE: This medicine is only for you. Do not share this medicine with others.**

**Where should I keep my medicine?**

This drug is given in a hospital or clinic and will not be stored at home.

**NOTE: This sheet is a summary. It may not cover all possible information. If you have questions about this medicine, talk to your doctor, pharmacist, or health care provider.**

**What side effects may I notice from receiving this medicine?**

Side effects that you should report to your doctor or health care professional as soon as possible: allergic reactions like skin rash, itching or hives, swelling of the face, lips, or tongue; breathing problems; dark urine; fast, irregular heartbeat; feeling faint or lightheaded, falls; general ill feeling or flu-like symptoms; high body temperature; right upper belly pain; seizures; slow or difficult breathing; unusually weak or tired; yellowing of the eyes or skin. Side effects that usually do not require medical attention (report to your doctor or health care professional if they continue or are bothersome): agitation, nervousness; cough; drowsiness; nausea, vomiting; shivering.

**This list may not describe all possible side effects. Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.**
