**Drug NDC: 00172-4236-60**  
**Drug Name: NADOLOL**

**How should I use this medicine?**

Take this medicine by mouth with a glass of water. Follow the directions on the prescription label. You can take this medicine with or without food. Take your doses at regular intervals. Do not take your medicine more often than directed. Do not stop taking this medicine suddenly. This could lead to serious heart-related effects.  
Talk to your pediatrician regarding the use of this medicine in children. Special care may be needed.

**Overdosage: If you think you have taken too much of this medicine contact a poison control center or emergency room at once.**  
**NOTE: This medicine is only for you. Do not share this medicine with others.**

**Where should I keep my medicine?**

Keep out of the reach of children.  
Store at room temperature between 15 and 30 degrees C (59 and 86 degrees F). Protect from light. Keep container tightly closed. Throw away any unused medicine after the expiration date.

**NOTE: This sheet is a summary. It may not cover all possible information. If you have questions about this medicine, talk to your doctor, pharmacist, or health care provider.**

**What side effects may I notice from receiving this medicine?**

Side effects that you should report to your doctor or health care professional as soon as possible:  
allergic reactions like skin rash, itching or hives  
cold, tingling, or numb hands or feet  
difficulty breathing, wheezing  
irregular heart beat  
mental depression  
slow heart rate  
swelling of the legs or ankles  
Side effects that usually do not require medical attention (report to your doctor or health care professional if they continue or are bothersome):  
change in sex drive or performance  
dry itching skin  
headache

**This list may not describe all possible side effects. Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.**
