

**FALAK PHARMACY****2730 E.TREMONT AVE , BRONX , NY , 10461****Phone#: 7185975230 Fax#: 7185972886****Drug NDC: 00245-0145-01****Drug Name: PACERONE****How should I use this medicine?**

Take this medicine by mouth with a glass of water. Follow the directions on the prescription label. You can take this medicine with or without food. However, you should always take it the same way each time. Take your doses at regular intervals. Do not take your medicine more often than directed. Do not stop taking except on the advice of your doctor or health care professional. A special MedGuide will be given to you by the pharmacist with each prescription and refill. Be sure to read this information carefully each time. Talk to your pediatrician regarding the use of this medicine in children. Special care may be needed.

**Overdosage: If you think you have taken too much of this medicine contact a poison control center or emergency room at once.** NOTE: This medicine is only for you. Do not share this medicine with others.

**Where should I keep my medicine?**

Keep out of the reach of children. Store at room temperature between 20 and 25 degrees C (68 and 77 degrees F). Protect from light. Keep container tightly closed. Throw away any unused medicine after the expiration date.

**NOTE: This sheet is a summary. It may not cover all possible information. If you have questions about this medicine, talk to your doctor, pharmacist, or health care provider.**

**What side effects may I notice from receiving this medicine?**

Side effects that you should report to your doctor or health care professional as soon as possible: allergic reactions like skin rash, itching or hives, swelling of the face, lips, or tongue; blue-gray coloring of the skin; blurred vision, seeing blue green halos, increased sensitivity of the eyes to light; breathing problems; chest pain; dark urine; fast, irregular heartbeat; feeling faint or light-headed; intolerance to heat or cold; nausea or vomiting; pain and swelling of the scrotum; pain, tingling, numbness in feet, hands; redness, blistering, peeling or loosening of the skin, including inside the mouth; spitting up blood; stomach pain; sweating; unusual or uncontrolled movements of body; unusually weak or tired; weight gain or loss; yellowing of the eyes or skin. Side effects that usually do not require medical attention (report to your doctor or health care professional if they continue or are bothersome): change in sex drive or performance; constipation; dizziness; headache; loss of appetite; trouble sleeping.

**This list may not describe all possible side effects. Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.**
