Drug NDC: 00785-9069-10
Drug Name: UAD EAR SUSPENSION

How should I use this medicine?

This medicine is only for use in the ears. Wash your hands with soap and water. Clean your ear of any fluid that can be easily removed. Do not insert any object or swab into the ear canal. Gently warm the bottle by holding it in the hand for 1 to 2 minutes. Lie down on your side with the infected ear up. Try not to touch the tip of the dropper to your ear, fingertips, or other surface. Shake the bottle immediately before using. Squeeze the bottle gently to put the prescribed number of drops in the ear canal. Stay in this position for 30 to 60 seconds to help the drops soak into the ear. Repeat the steps for the other ear if both ears are infected. Do not use your medicine more often than directed. Finish the full course of medicine prescribed by your doctor or health care professional even if you think your condition is better.
Talk to your pediatrician regarding the use of this medicine in children. While this drug may be prescribed for selected conditions, precautions do apply.

Overdosage: If you think you have taken too much of this medicine contact a poison control center or emergency room at once.
NOTE: This medicine is only for you. Do not share this medicine with others.

Where should I keep my medicine?

Keep out of the reach of children.
Store at room temperature between 15 and 25 degrees C (59 and 77 degrees F). Do not freeze.
Throw away any unused medicine after the expiration date.

NOTE: This sheet is a summary. It may not cover all possible information. If you have questions about this medicine, talk to your doctor, pharmacist, or health care provider.

What side effects may I notice from receiving this medicine?

Side effects that you should report to your doctor or health care professional as soon as possible:
rash
red, itchy, dry scaly skin at the affected site
worsening ear pain
Side effects that usually do not require medical attention (report to your doctor or health care professional if they continue or are bothersome):
abnormal sensation in the ear
burning or stinging while putting the drops in the ear

This list may not describe all possible side effects. Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.
