**Drug NDC: 45963-0555-50**  
**Drug Name: GABAPENTIN\***

**How should I use this medicine?**

Take this medicine by mouth with a glass of water. Follow the directions on the prescription label. You can take it with or without food. If it upsets your stomach, take it with food. Take your medicine at regular intervals. Do not take it more often than directed. Do not stop taking except on your doctor's advice. If you are directed to break the 600 or 800 mg tablets in half as part of your dose, the extra half tablet should be used for the next dose. If you have not used the extra half tablet within 28 days, it should be thrown away. A special MedGuide will be given to you by the pharmacist with each prescription and refill. Be sure to read this information carefully each time. Talk to your pediatrician regarding the use of this medicine in children. Special care may be needed.

**Overdosage: If you think you have taken too much of this medicine contact a poison control center or emergency room at once.**  
**NOTE: This medicine is only for you. Do not share this medicine with others.**

**Where should I keep my medicine?**

Keep out of reach of children. This medicine may cause accidental overdose and death if it taken by other adults, children, or pets. Mix any unused medicine with a substance like cat litter or coffee grounds. Then throw the medicine away in a sealed container like a sealed bag or a coffee can with a lid. Do not use the medicine after the expiration date. Store at room temperature between 15 and 30 degrees C (59 and 86 degrees F).

**NOTE: This sheet is a summary. It may not cover all possible information. If you have questions about this medicine, talk to your doctor, pharmacist, or health care provider.**

**What side effects may I notice from receiving this medicine?**

Side effects that you should report to your doctor or health care professional as soon as possible: allergic reactions like skin rash, itching or hives, swelling of the face, lips, or tongue; worsening of mood, thoughts or actions of suicide or dying; Side effects that usually do not require medical attention (report to your doctor or health care professional if they continue or are bothersome): constipation; difficulty walking or controlling muscle movements; dizziness; nausea; slurred speech; tiredness; tremors; weight gain

**This list may not describe all possible side effects. Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.**
