Drug Name: IBANDRONATE SODIUM

How should I use this medicine?

You must take this medicine exactly as directed or you will lower the amount of medicine you absorb into your body or you may cause yourself harm. Take your dose by mouth first thing in the morning, after you are up for the day. Do not eat or drink anything before you take this medicine. Swallow the tablet with a full glass (6 to 8 ounces) of plain water. Do not take this medicine with any other drink. Do not chew or crush the tablet. After taking this medicine, do not eat breakfast, drink, or take any other medicines or vitamins for at least 1 hour. Stand or sit up for at least 1 hour after taking this medicine. Do not lie down. Take this medicine on the same day every month. Do not take your medicine more often than directed. Talk to your pediatrician regarding the use of this medicine in children. Special care may be needed.

Overdosage: If you think you have taken too much of this medicine contact a poison control center or emergency room at once. NOTE: This medicine is only for you. Do not share this medicine with others.

Where should I keep my medicine?

Keep out of the reach of children. Store at room temperature between 15 and 30 degrees C (59 and 86 degrees F). Throw away any unused medication after the expiration date.

NOTE: This sheet is a summary. It may not cover all possible information. If you have questions about this medicine, talk to your doctor, pharmacist, or health care provider.

What side effects may I notice from receiving this medicine?

Side effects that you should report to your doctor or health care professional as soon as possible: allergic reactions such as skin rash or itching, hives, swelling of the face, lips, throat or tongue; black or tarry stools; change in vision; chest pain; heartburn or stomach pain; jaw pain, especially after dental work; redness, blistering, peeling, or loosening of the skin, including inside the mouth; trouble or pain when swallowing; Side effects that usually do not require medical attention (report to your doctor or health care professional if they continue or are bothersome): bone, muscle or joint pain; changes in taste; diarrhea or constipation; headache; nausea or vomiting; stomach gas or fullness

This list may not describe all possible side effects. Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.
