Drug NDC: 59310-0410-12
Drug Name: QNASL 80MCG/ACT NASA

How should I use this medicine?

This medicine is for use in the nose. Follow the directions on your prescription label. Do not use more often than directed. Make sure that you are using your inhaler correctly. Ask your doctor or health care provider if you have any questions. Talk to your pediatrician regarding the use of this medicine in children. While this drug may be prescribed for selected conditions, precautions do apply.

Overdosage: If you think you have taken too much of this medicine contact a poison control center or emergency room at once.
NOTE: This medicine is only for you. Do not share this medicine with others.

Where should I keep my medicine?

Keep out of the reach of children. Store at room temperature between 15 and 30 degrees C (59 and 86 degrees F). Throw away any unused medicine after the expiration date or after the labeled number of sprays have been used, whichever comes first.

NOTE: This sheet is a summary. It may not cover all possible information. If you have questions about this medicine, talk to your doctor, pharmacist, or health care provider.

What side effects may I notice from receiving this medicine?

Side effects that you should report to your doctor or health care professional as soon as possible:
-allergic reactions like skin rash, itching or hives, swelling of the face, lips, or tongue
-breathing problems
-changes in vision
-nosebleed
-signs and symptoms of infection like fever or chills; cough; sore throat
-white patches or sores in the mouth or nose
Side effects that usually do not require medical attention (report to your doctor or health care professional if they continue or are bothersome):
-burning, irritation in nose or throat
-changes in taste or smell
-headache
-runny nose

This list may not describe all possible side effects. Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.
